Has directions for stitches at beginning of each pattern design. Have found that Leisure books have consistent directions in each book so I have ordered 3 more of their pattern booklets. Have made two doilies already and also two that I stopped at the size to fit the top of little baskets I had. Attached them to the tops and they are gorgeous for sewing baskets for my granddaughters for Christmas . I plan on making all the designs. By the way these are the first doilies that I have ever made.1 of 1 people found the following

review helpful. Beautiful DoiliesBy CSBThe doilies in this book are gorgeous. The patterns are complex so I would recommend the book for a more experienced crocheter. 1 of 1 people found the following review helpful. Absolutely Gorgeous DoiliesBy BeverlyWritten patterns only, no charts. If you don't like details, some have a lot of picots in them as do a lot of her patterns. They are pretty and challenging for any one willing to try it.

These pretty crochet patterns come in striking shapes and are absolute delights to behold. Several of the 18 intricate designs include raised stitches, giving them an irresistibly touchable look. Step-by-step instructions and color photos are included.
