By Customer This coloring book has done a great job at keeping our whole family entertained. There is a good amount of variety in the pictures and the detail in the pictures is great! I have been working on positive thinking lately, and the inspiration found in the pictures has been great! I started working through the book, but after a few pictures my kids took it over and they work on it now every week. Hopefully there are more coloring books coming out soon from the same people! Thanks! 0 of 0 people found the following review helpful. I love this book! By thewhitebench I love this book! The designs are beautiful, and the quotes are a really nice, unexpected touch. I can't

believe how much fun it is to sit down and color. So relaxing after a busy day, and so rewarding for a tragically unartistic/creative person like myself to feel like I can create something beautiful. I've also loved being able to sit down with my kids while they are coloring and be able to color something along side them. All in all, a great purchase. 0 of 0 people found the following review helpful. Love this coloring book! By shonee Coloring books have become so popular lately. The thing that stood out to me about this coloring book is the inspirational quotes. I love to just relax and watch a show while coloring. The quotes are very uplifting and I love it. Great coloring book!
