The pictures are really lovely and some of the drawings are more detailed than others which gives a good variety. The back of the pages are blank so you can remove them for framing etc. There are several blank pages at the back which I really like as I always keep a blank page handy to test colors before I use them on my picture. About the Author Beth Ingrias has been creating illustrations for over 5 years. Her adult coloring books are quickly gaining popularity and her eager fans can't wait to get their colored pencils, gel pens and markers into her latest intricate creation. Drawing inspiration from the world around her, Beth loves to travel and experience new places, people and cultures. Each new destination brings out something new in her coloring books designed for adults. From sugar skulls to animals, plants, celestial patterns and more; Beth loves creating black and white art for the whole world to enjoy. Most of my creations start out as simple ideas that I quickly sketch on paper. Once I get my sketches home and into my computer, everything usually changes quite dramatically. I love combining my pencil sketches with the modern tools of technology to create a one of a kind piece of art found nowhere else that you can easily color using your favorite mediums. Each design brings something fresh and new to your color palette and gives you the opportunity to get lost if just for a little while. That is one of the greatest blessings the world of art gives each and every one of us, the ability to see a work of art through our own eyes and forget about the hectic problems of the day. My designs take it a step further by giving you the opportunity to choose what color goes where. Go ahead, let loose and color your heart out! Beth Ingrias.
