Better Homes and Gardens /Need I say More!By CustomerBHG has been around since forever and they have consistently published the finest publications for the needle artist. I've always thought they well understood that cross-stitch was a classic needleart and worked to preserve this heritage. This book does not disappoint. Published in 1988, 22 years ago, it is still fresh as when issued. The motifs are charming and in some cases challenging. Check out the unusual headboard and bedskirt on page 122 or the Della Robbia Christmas Tablecloth on page 136. These pieces are already family heirlooms somewhere. There is much more in this book and they do break things down so that stitchers of all levels can create beautiful pieces for all occasions or inclinations. It's not one to be missed. Get one while they are still available. It is a classic.4 of 4 people found the following review helpful. Love itBy Sybil HarrisonThis was my first Mother's Day gift 24 years ago. I made the Nautical Sampler for my son. It was a gift for his 10th birthday. I lost the book and the Nautical Sampler to Hurricane Katrina so I had to buy it. Maybe I will make the Sampler again.0 of 0 people found the following review helpful. Beautiful PatternsBy J. GermanyI am just finishing the pattern on the cover.
