The younger one likes to make them just like the pattern, where the older one likes to change it into her own vision. They loved it and so did I. They promised to let me borrow it when they finish everything that they want to make for now LOL.0 of 0 people found the following review helpful. not worth \$17!By Amber HarcharikI got a few good tips but overall not worth the price. This is more like a cheap magazine that should cost \$5

This book contains detailed patterns and instructions for creating seven hand embroidered felt woodland forest animals. The included projects are suitable for beginners and experienced crafters alike. Each animal takes between two to four hours to create. A sewing machine is not required.
